About MSA

Magnum Star Associates (MSA) is a leading name in providing knowledge and tech-driven business solutions. Our aim is to enable superior returns for the client's investment through our industry-best products, deep domain knowledge and expertise.

The company operates with a stringent business philosophy based upon integrity and professionalism. MSA approaches every business activity with sincerity and upholds the principles, which have been integral to its success. Our solutions are designed to meet the unique requirements of our clients and are compatible to cater for future enhancements and developments in the relevant field.

We deliver smart solutions in:

- Telecom Services
- Specialized Technical Equipment
- Networking Services
- Civil Engineering Works
- Trading Services
- General Order Supply
- Security Services

We Deliver Client Satisfaction

We Take Responsibility for Quality

We Act with Integrity

We take Pride in our People

Excellence
The Magnum Star Way

Telecom Solutions

Magnum Star offers complete end to end telecom network related services. These services range from network Planning & designing to complete infrastructure installation, commissioning, optimization, benchmarking, system integration and operations.

Customized Services

Network Design & Site Survey

Our experienced structural engineers ensure that site designs reflect the best interests of clients for build-ability, quality, value and future network requirements in order to minimize costs.

MSA provides a full range of site survey services designed to collect a comprehensive set of data to support all aspects of the design and implementation components of a telecommunication Implementation Project. Our services include:

- Physical Site Survey
- Post Survey Report
- Microwave Path Survey

Designs are planned and executed by an experienced group of certified engineers according to environmental impact regulations as well as the customer's requirements.

Civil Works

As MSA wears the dual hats of telecommunication contractor and telecommunication consultant, we are able to deliver a fresh perspective to tower construction and optical fiber deployments as well as to the telecom structural and civil engineering needs of our customers.

MSA's professional team of telecom civil engineering experts has extensive experience in providing a variety of telecom engineering/civil engineering services such as:

- Architectural Site Layout
- Structural Steel Design & Detailing
- Concrete Foundations.

We also have experience in civil works and engineering in the spheres of drainage, access roads, grounding, underground conduits and security.

Power Systems

Uninterruptible power is critical to maintaining a reliable communications infrastructure.

Power disturbances (outages, sags, swells) are the most common cause of communications downtime. Customers seeking modern, reliable, affordable backup power solutions that compliment and support their advanced telecom or mission critical networks need to look no further than MSA's field-proven power systems.

Telecom power systems secure telecommunication services in case of grid power interruptions and fluctuations. MSA's power systems are designed for wireless broadband access and fixed-line applications, as well as for Internet backbone and data centers. We provide reliable and energy-efficient telecom power solutions to help operators reduce OPEX and their carbon footprint.

Optical Fiber Cable Deployment

Our expert team equipped with state of the art technology, knowledge and skill perform fiber optic installation, splicing, termination and testing services on multimode and single-mode cables. Our best-in class equipment and field-proven procedures ensure the best quality installation possible.

Our services do not just stop at installation in fact they make sure the deployment is effective and efficient by testing it fully according to recognized industry testing procedures.

We also provide complete documentation that includes the splice and termination plan, splice losses, connector losses, optical time domain reflecto-meter (OTDR) traces (as needed), and end-to-end insertion loss test results. The company possesses latest test and measurement equipment required for laying, jointing, testing and termination of optical fiber and copper cables.

PABX SOLUTIONS

MSA's flexible PABX solutions cater to the needs of small offices and homes to medium and large sized businesses. Our systems can be designed and installed to meet your exact requirements, whether it is a voice only system or integrated into your computer network. We can also implement additional convenient features and services including:

- Voice Mail
- Computer Telephony Integration
- Call Management Software
- Call Logging and Recording Systems
- Door Intercom
- Lone Working and many more

On-Site Technical Assistance

Trust MSA with the installation, inspection, and repair of your communication towers, sites and facilities. We are an experienced market leader, specializing in towers and antennas of nearly every size. Our highly trained crews deliver optimum quality assistance on-site including full installation of coax and connectors. We also offer RF sweeping and full PIM testing capabilities. Microwave link alignment and spectrum analysis/interference mitigation are among many of the technical services we can provide. Our on-site technical assistance for optical fiber cable installation includes

- Recommendations on optical cables and hardware
- Cable placement techniques
- Connectivity
- Identification of potential installation trouble spots to ensure optimum system performance.

Trouble Shooting and Restoration

Our restoration crew is immediately dispatched to the affected site in order to determine the location, nature and cause of cable failure. All necessary equipment and resources are utilized to perform restoration of the system. The MSA team also assists in the procurement of any materials needed for restoration. The restored system is fully tested and documented to ensure proper operation. This service can be availed on a maintenance contract basis with an established response time or on as-required / as-available basis.

Complete Project Management

Complete turnkey projects integrate the latest technology and implementation techniques. These include:

- Civil/Facility Installation
- Aerial/Stringing, Buried (Direct & Duct), Trenching and Horizontal Directional Drilling
- Universal Communications Media (Fiber, Copper, COAX)
- Project Cost Modeling, Site Surveys, Splice Plans
- On-site Project Management and Material Management
- Field-performance Testing Measures (PMD), Chromatic Dispersion and Attenuation
- Hut/Remote Building Placement
- Free Estimates and Take Offs

Whether you opt for an exclusive customized service or complete project management, our experience and skill will guarantee

Unsurpassed quality Unrivalled efficiency Unmatched stability

Specialized Technical Equipment

High Tech & Low Tech Technical & Assistive Equipment

Technology has reshaped the world. In today's hi-tech environment everything is linked to knowledge and innovation that propels the human race forward. Almost all sectors and areas in life require the use of modern technical equipment to meet growing demands and international standards.

Catering to Diverse Needs

Whether it's the vast fields of education, science, telecom, medical and engineering or the specific requirements of national security and Law Enforcement Agencies, MSA strives to deliver quality gadgets and equipment that meet all international standards. Any type of product or equipment of any make or brand is provided along with added services.

Added Services

Overseas Pre-Shipment Inspection & Training

This service consists of overseas assessment and /or inspection of cargo. We believe in earning the customer's trust and therefore provide complete satisfaction before shipment and delivery.

In addition, if required, training is also facilitated for better understanding of usage and operations of the technical equipment.

Procurement

When the customer has given a go ahead after the inspection process, the process of procurement is undertaken and completed.

Delivery

The cargo is shipped or delivered to a desired location keeping in mind international best practices and standards of packing and delivery.

On-Site Training

We continue to maintain our relations with the customer by providing training after installation or delivery of equipment so that the best use of investment is ensured.

After Sales Service

We do not just stop there and also offer maintenance and backup support for these specialized technical equipments even after sales.

A hand is shown holding a smartphone. The phone's screen displays a network diagram with several nodes and connecting lines. In the background, a glowing globe is held in the palm of the hand. The scene is overlaid with various network-related icons, including people silhouettes, Wi-Fi symbols, and envelope icons. An orange rounded rectangle is positioned in the upper right corner, containing the text 'Networking Solutions'.

Networking Solutions

Networking Services

MSA provides holistic solutions for a networked world. The Company has comprehensive portfolio of LAN/WAN, wireless, server, and managed broadband-based VPN solutions address all facets of the network lifecycle including network design and planning, integration, maintenance, and proactive monitoring/management.

LAN/WAN

MSA offers solutions to address all facets of the network lifecycle including analysis, design, installation, operation and post-installation assistance.

Network Analysis & Design

Implementing a new network or changing an existing network requires a significant amount of planning, coordination and technical expertise. MSA Networking experts ease the hassles associated with complex network implementations by determining the system that fulfills your requirements and by providing everything necessary to ensure success - including the peace of mind that comes with being supported by a knowledgeable and experienced group of network professionals.

Network Installation

Whether you need a single unit installation or have a significant network upgrade project, MSA offers professional, reliable onsite installation services. Installations managed by our experienced installation coordinators to keep complex network deployments on schedule.

Whether the job is implementing a new network or changing an existing network, MSA is an experienced support partner you can trust to complete the job correctly with minimal business disruption.

Post Installation Support

At MSA, we believe it's important to be at the service of our client post network installation. Whether its maintenance services or operational support, we help you to enhance productivity and get the most from your data networking plan with flexible options for assistance when you need it.

Civil Engineering Works

Engineering Excellence in Construction of Building, Roads & Bridges.

MSA has over the years amassed experience in the successful delivery of infrastructural projects, specialized in the innovative execution of complex Civil Engineering Projects.

Our engineering consultants specialized in structure, transportation & geotechnical engineering works. Just convey us your dream and give us a chance of transforming it into reality. We provide nationwide services in designing, planning, supervision & management. Whether its small discerning home, commercial plaza, road (highway or lane), culverts or multi span bridges, you can rely on our skilled team equipped with most modern equipment, knowledge & technique.

Major Services Offered by MSA in the field of Engineering

- Building / construction work
- Construction / Repair & maintenance of Bridges and culverts
- Construction / Repair & maintenance of Roads (Highways and Lanes)
- Horizontal Directional Drilling Services

Services offered in Building works:

- Structural designing under the provision of building regulations and standards
- Geotechnical investigation reports as well as pre construction soil treatment
- Construction project planning & progress monitoring
- Project execution as per quality control, environmental & safety standards
- Gray structure finishing as per client wish
- Installation of all types on electrical & mechanical utilities

Services offered in Bridge works:

- Pre-construction feasibility reports writing
- Geotechnical investigation & structural designing
- Project execution & monitoring keeping in view timely completion & quality control
- All types of sub structure & super structure works
- Bridges/culverts rehabilitation using modern techniques

Services offered in roads construction:

Topographical survey for routes evaluation.

Project execution as per design, quality control & safety standards.

A complete set of facilities regarding encountered issues of underground services.

Final landscaping after project completion including retaining walls, plantation & site clean up.

Road rehabilitation services.

HORIZONTAL DIRECTIONAL DRILLIND (HDD) The best in Power and Efficiency

MSA offers precision HDD services through our technical team and industry-leading best practices. We complete your complex directional drilling projects with skill and reliability. **MSA owns the latest DITCH WITCH 2720 All Terrain Hydraulic Directional drilling machine** designed to steer and back reamer through virtually any type of soil over a distance of up to 300 meters. Ability to drill not only rocks but through cobblestone, broken rock, gravel and caliches. Fitted with cruise control feature which can maintain desired thrust, pullback and rotation setting.

ALLIED SERVICES

Electrical Works

We offer electrical services to residential, commercial and industrial units. Our staff is fully trained and equipped to provide the following services:

- Supply, installation and maintenance/servicing of domestic and commercial Air conditioning systems
- Electrical Troubleshooting
- Aluminum Wire to Copper Wire Pig Tailing
- Recessed Installation and Landscape Lighting
- Meter Panel Upgrades, Breaker & Fuse Replacement
- 220 Volt Service Installation and Repair Rewiring
- Parking Light Installation and Maintenance
- Sign Service and Repair
- Low Voltage Touch Plate/Relay Systems, CAT 5, CAT 5e and CAT 3 Wire Installation

Trading Services & Solutions

At **MSA** it is our belief that the customer is the most important Asset.

MSA has built a strong reputation for delivering exceptional quality services to its customers in the field of trading. Our growing reputation of excellence is due to scientific management and coordinated efforts of all the team.

We specialize in outsourcing of domestic and international products and services

Sale Purchase Lease Rental

of all kinds of branded and non-branded items/goods/products from reputed sources of local and international manufacturers, suppliers, service providers in the following areas:-

- **Telecommunication Equipments and Accessories**

- Optical Fiber Cables
- Patch Cords/Pig tails
- Splicing Machines
- OTDRs
- Joint Enclosures
- Telecom Cabinets
- Patch Panels and Distribution Frames
- HDPE Pipes
- Indoor / Outdoor Ducts and Channels

- **Security Gadgetries**

- Walk Through Gates and Scanners
- Metal Detectors
- CCTV Cameras
- Pepper Sprays for Attacker Eyes
- Anti Theft Software for smart Phones
- Surveillance Equipment
- Fencing Wires
- Spy Cameras
- Burglar Alarms

- **Defence Equipments**

- Prefabricated bridges
- Bullet Proof Helmets and Jackets
- Hand Held Walkie Talkies
- High Security Military Fences
- Military Tactical Supplies
- Shelters and Accessories
- Web Items
- Blizzard Bags
- Recharge able LED Military Equipment
- Dry ration Items
- Tinned Food Items
- Any other customized supplies required for Operational or administrative use

Consultation

Our team of experts is there to:-

- Help and identify what products are required for customer specific needs and applications
- The alternatives available to them
- The best option based upon mutual discussion

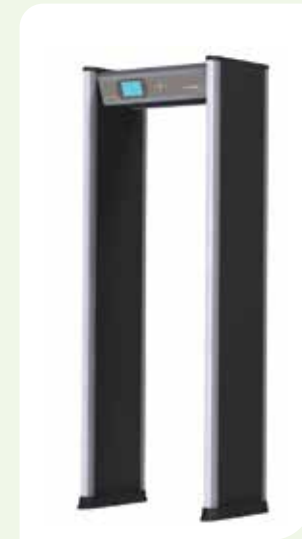

Our team thus ensures that our clients receive the best value for the investment made by customer.

Trading Methodology

MSA's trading methodology ensures smoother entries and exits.

- Avoiding trades with adverse risk/reward characteristics
- Entering markets only during periods when risk/reward of trade is favorable

The end result is a trading method that provides our investors exceptional return on investment.

Our Aim is a Long-term,
Beneficial & Rewarding
Relationship
with Customers

MSA endeavors to establish a long-term relationship with a customer that is based on trust and mutual understanding. We don't just make sure that our customer acquires the required content but we go the distance with them by making sure that it is delivered and installed (if required) to give optimum performance.

Even after that MSA provides training for handling or operating the acquired items/equipment and continues to cement the relationship by offering After Sales Service of the goods traded.

In everything We do, we strive to be...

- Respectful of Commitments
- Performance Driven
- Focused and Progressive
- Contributive
- Creative
- Successful

General Order Supplies

“You Name It ... We Supply It”

MSA works to satisfy customers by utilizing our knowledge, expertise and resources. We endeavor to provide cost efficient procurement on a larger scale straight from the source. When it comes to General Order Supplies we provide high caliber procurement resource and expertise to a wide variety of markets, while striving for:-

Quality
Reliability
In-Time Delivery
Service Excellence

While ensuring above listed factors, the MSA specializes in the following:-

- Complete range of office Furniture and Stationery
- Communication Equipments
- Fire Safety Equipments
- Designing and Printing of all kinds of promotional materials
- Electrical Appliances / supplies
- HVAC/ Air Conditioning Systems
- Complete range of Textile Accessories
- Miscellaneous customized requirements

Benefits of dealing with MSA

- We can get better prices for you
- We can help you with product search
- We provide all our customers worry-free buying in Pakistan
- We can provide you with warehouse containers inspection

Customer Satisfaction is our Goal

Customers are our primary concern and their contentment with our services means a lot to us. We endeavor to supply quality products with our value added capabilities to maintain and expand our growth in the General Order Supply field.

Our ability to cater to bulk orders enables us to invite new ventures, business proposals and tie-ups from clientele with diverse needs and requirements.

Security Solutions

MSA offers a holistic set of security services including both Electronic Security Systems and Physical Security Services. We recognize the importance of maintaining the confidentiality of what we do for our clients and perform our services with care and discretion.

Electronic Security Systems

Intruder & Fire Detection Systems

MSA offers the most advanced security alarm systems available. Our fully customizable burglar and fire alarm systems secure every nook and corner of buildings, offices and construction sites, ensuring that a breach or mishap never occurs.

CCTV & Video Surveillance Systems

CCTV and video surveillance systems are a major deterrent against theft and vandalism that can help businesses of all sizes reduce security risks. MSA utilizes the latest in high-quality digital security camera and video surveillance technology and provides complete surveillance and monitoring systems for offices, buildings, airports, railway stations, retail stores, military and sensitive installations and more.

Access Control Systems

MSA utilizes industry-leading access control systems that give your business the control and the information necessary to run more efficiently while providing a safe work environment for your employees.

Security Equipment Offered

- Walkthrough Gates
- Scanners
- Under Vehicle Mirrors
- Electronic Barriers
- CCTV Cameras
- Metal Detectors
- Pinhole Cameras

Whether you need a business security system or equipment for a small business, large enterprise company or a public sector organization, MSA offers the best team of security specialists and leading-edge technologies to solve your security challenges, no matter what they may be.

Guard Service

At MSA, we strive to employ and retain a talented team of security guards and specialists who are most qualified to hold positions of trust and responsibility through careful scouting, selection and training.

Security Guard Staffing Levels

- Unarmed Security Guards
- Armed Security Guards
